Re:

May 6, 2024 Meeting

Compost/Brush Grinding: The City contracts the grinding of brush/compost on a biannual basis. Staff contacted several vendors and received two quotes for the grinding. Urban Forest Services LLC provided the lowest responsible quote as shown below:

CONTRACTOR	MOBILIZATION	HOURLY RATE	ESTIMATED TOTAL
URBAN FOREST SERVICES LLC	\$400	\$600	\$7,600
BUCKLINS	\$1,500	\$575	\$8,400.

Staff recommends awarding the brush/compost grinding contract to Urban Forest Services LLC at the quoted hourly rate and mobilization fee.

Bid Summary-Edgerton Police Department 215 West Fulton St. Edgerton, WI. 53534

In conjunction to the installation of a solar power system at the police station, bids have been obtained for a more efficient heating and cooling system:

Company	Estimate Amount	Equipment
Al Beyers	\$10,589.00	Bryant Hybrid-Heat -"Puron" Evolution Series Heat Pump System – 4 ton variable speed unit
Dohner	\$12,350.00	Champion High Efficiency Single Stage 95%
Heating &		80,000 BTU Furnace/Champion 19SEER 3 ton Heat
Cooling		Pump/Champion 3 ton Cased Coil Psd.
Harker Heating	\$12,738.00	Carrier 2 Stage Heat Pump – 4 ton unit
& Cooling		

As the city moves forward with the process of installing a solar power system at the police department as well as other municipal buildings the police department has received quotes for more energy efficient heat pump/cooling system in order to save on energy costs.

I have received three bids to replace the heating/cooling system with the intention of tying the entire HVAC system into solar panels for additional savings. All three of the bids reflect a unit that could adopt a heat pump/cooling system compatible to solar energy when installed at the department.

All bids include 10-year parts warranty and 1-year labor as well as energy rebates.

Staff recommends the City select Al Beyer's proposal for \$10,589.00.

ADDENDUM TO AGREEMENT FOR PROFESSIONAL SERVICES

This Agreement shall be an addition to, and subject to the conditions contained in that Agreement for Services dated April 5, 2011, between Cedar Corporation (ENGINEER), and City of Edgerton (OWNER).

WHEREAS the OWNER wishes to engage the ENGINEER to provide various services as described below, in accordance with ENGINEER procedures, standards, and normal billing practices, and

WHEREAS the project to which such services apply is referred to as the PROJECT and described generally as follows: Albion Street - Street and Utility Improvements, and

WHEREAS the ENGINEER has agreed to perform such work.

NOW, THEREFORE, and in consideration of the above, the ENGINEER and the OWNER do hereby agree and covenant as follows:

SECTION 1 - SERVICES

The PROJECT includes the following improvements:

Project: Albion Street - Street and Utility Improvements

- Description: Design both Phase 1 and Phase 2; Construct Phase 1
- Coordinate with the OWNER, assist with development of site list, prepare specifications and bidding documents, assist with bidding and analysis, assist with construction administration, observation and documentation.
- Provide for one bidding of Phase 1 construction

1.1 GENERAL PROJECT ADMINISTRATION

The ENGINEER agrees to provide the following General Administrative Services for the PROJECT. OWNER and ENGINEER agree that the ENGINEER shall be obligated to provide only that degree of scrutiny of the Contractor's work as is described in this part. Only if specifically included otherwise in this Agreement shall the ENGINEER provide full-time Resident Engineering Services for the PROJECT.

The performance of General Administrative Services specifically excludes direction or supervision of the Contractor or his employees in the performing of their work in a safe, legal or proper manner and ENGINEER hereby disclaims any responsibility therefore.

ENGINEER will endeavor to guard OWNER against defects and deficiencies in the work. However, it is understood and agreed by and between ENGINEER and OWNER that with respect to defects and deficiencies in the work, ENGINEER'S role under this subsection is advisory only. Accordingly, ENGINEER can neither guarantee the performance of the construction contracts by Contractor(s) nor assume responsibility for Contractor(s)' failure to furnish and perform their work in accordance with the Contract Documents.

ENGINEER shall under this paragraph, assist the OWNER in administering the provisions of the Contract Documents as follows:

- Assistance in interpretation of the drawings and specifications and approval of all changes in the Contract Documents.
- Make decisions regarding the PROJECT as called for in the Contract Documents.
- Assistance in interpretation of the reports of inspection bureaus, laboratories, test borings, and subsurface exploration related to the PROJECT during construction.
- Review of shop drawings and manufacturer's data for general conformance with the Contract Documents.
- Final inspection and processing of final contract payment request. (Final unit quantities where appropriate to the method of compensation shall be furnished to the ENGINEER by the OWNER or OWNER'S Agent performing Resident Engineering duties.)
- Assistance with warranty work required by the Contractor.

1.2 RESIDENT ENGINEERING

The ENGINEER agrees to provide Resident Engineering Services for the PROJECT. These services do not guarantee the Contractor's performance which is covered by the Contractor's bond, but by providing these services, the ENGINEER endeavors to protect the OWNER against defects and deficiencies in the PROJECT work and endeavors to insure compliance with the drawings and specifications within reasonable tolerances generally accepted in the Trade.

The OWNER has requested the ENGINEER to provide part time Resident Engineering which shall provide for a Resident Project Representative to be at the construction site, when requested, continuously during underground utility installation. Scheduling of onsite observations will endeavor to observe and accept or reject materials and procedures, in general, before they become hidden from view by subsequent construction.

Services to be offered by the ENGINEER are limited to those specified below:

- Observation of completed work for compliance with drawings and specifications.
- Keeping field measurement records.

- Keeping records of the Contractor's activities.
- Negotiation of field changes and change orders for approval by the OWNER and ENGINEER.
- Recommendation for payment of Contractor's progress payment requests.
- Assist with wage rate interviews when requested

1.3 ADDITIONAL ENGINEERING SERVICES

The ENGINEER shall under this paragraph provide optional additional professional services which are often a part of the project, but which have not been included under previous paragraphs. These services shall be provided **AT ADDITIONAL COST** under the method indicated in Section 2.

Examples of these services include, but are not limited to:

Providing services which are not in accordance with ENGINEER procedures, standards or normal billing practices, assistance to attorneys and appearances before courts or boards on matters of litigation or arbitration, redesign ordered by the OWNER after the original design concept has been reviewed and accepted by the OWNER, laboratory testing, tune up and testing of equipment, plant operation and maintenance manuals, training of operators, final computation of total eligible PROJECT cost including engineering, construction, administration, etc., for purposes of audit on projects involving grants, etc.

The ENGINEER agrees to provide the following Additional Engineering Services for the PROJECT:

• None requested at this time. However, services of the type listed above will be provided under this paragraph **AT ADDITIONAL COST** if authorized in writing by the OWNER.

SECTION 2 - COMPENSATION

AN INITIAL PAYMENT OF Zero Dollars (\$0.00) shall be made upon execution of this Agreement and credited to the OWNER's account at final payment.

2.1 PER DIEM

Whereas the OWNER has elected to compensate the ENGINEER for services under paragraphs 1.1, 1.2, and 1.3 on a Per Diem Basis, such compensation shall include payment for labor, direct expenses, and other compensation as follows:

Hourly Rate Schedule: The hourly rates to be used for this item shall be determined by the hourly rate schedule incorporated into this agreement as shown below or attached schedule. The

ENGINEER reserves the right to adjust the overhead rate, which is used in determining the above hourly rates, on a yearly basis.

Direct Expenses: Reimbursement of direct expenses incurred in connection with the PROJECT, including but not limited to the following:

- Reimbursable expenses (e.g. long-distance telephone, subsistence and lodging, commercial transportation, postage and shipping, expense of purchased services, lease of specialized equipment, etc.).
- Mileage expenses per IRS regulations.
- Fees paid for securing approval of authorities having jurisdiction over the PROJECT.
- Printing and reproduction.
- Actual reproduction costs and mailing costs for Bidding Documents less the non-refundable purchase amount received for the Bid Documents.
- Equipment costs (e.g., computers, automated survey instruments, CADD equipment, etc.).

Payments are due and payable thirty (30) days from the date of the ENGINEER's invoice. Amounts unpaid thirty (30) days after the invoice date shall bear interest at the rate of one percent (1%) per month from invoice date.

The estimated cost follows:

Items 1.1 through 1.2 = \$177,545 Item 1.3 = To be determined if requested.

Other Compensation: It is understood that when requested by the OWNER, the ENGINEER shall procure the services of independent inspection bureaus, laboratories, soil exploration firms, etc. However, this is for the convenience of the OWNER and the ENGINEER shall provide coordination only of these services at the labor rates determined above.

SECTION 3 - TIMETABLE

Estimated Project Schedule:

Design/Bidding Late 2023/Early 2024

Project Construction Summer 2024 Substantial Completion Fall 2024

Final Completion Spring/Summer 2025

The ENGINEER is prepared to work within the above schedule, unless delays occur due to unforeseen circumstances beyond the control of the ENGINEER.

SECTION 4 - SPECIAL CONDITIONS

None

All other provisions of that Agreement referred to above shall remain in force unless otherwise modified or deleted above.

Re: Revive Edgerton Review

Program statistics: Attached is a spreadsheet detailing program activity. Below is a summary:

- The program has dispersed a total of \$79,922 in funding since its creation in 2021 for 32 projects. 69% of the funds awarded were in grants and 31% have been for four loans. Please note that loan money will be repaid and can be used again by other applicants, thus extending the life of the program.
- The average size of the projects completed is \$14,539. The current policy allows for a **grant** of 25% of the project costs up to \$10,000. If the project exceeds \$10,000, the applicant can apply for a **loan** (2% interest with 10-year term) for 50% of the costs exceeding \$10,000. Given the average project size, the \$10,000 grant/loan policy seems appropriate.
- The current balance of available funding is \$426,103. The average amount of funds dispersed for 2022 and 2023 was \$35,707.

Current Main Policies:

- Home owners are eligible; rental properties are not
- Affordable is defined as properties having an assessed value of less than the average assessed value of all single-family homes and condominiums in the City.
- Eligible work includes investments that increase the area of the home or modernize the home; energy efficiency improvements; mechanical additions such as adding air conditioning, etc. Ineligible activities are those that relate to maintenance (replace furnace, replace roof, decks, appliances, etc.)
- Work completed prior to approval of the loan/grant agreement are ineligible.

Policy questions:

- Does the committee believe we should try to increase the rate at which we are funding projects?
- If so, should we increase the eligibility threshold to 110 or 120% of the average assessed value?
- Does the Committee want to modify policies to encourage more grants or loans?
- Should grants be a larger percentage of the project costs that the current 25%?
- Should more repair or replacement type work be allowed?

- Should we offer the program to owners of rental property? Our consultant who administers major aspects of the program has the following insights into this question: It will take more time to work on a landlord project because the tenants will be involved along with the landlord and sometimes that can make things more complicated. We would need to have the tenant be the one to income qualify, not the landlord, so we would need to be able to get the income information from the tenants. We would have to decide if we would put restrictions on the property requiring, the landlord rent to a low to moderate household for a period of time or just at the time the project is completed. All of this takes more administration time.
- Should we modify the program to offer funds to projects that create affordable housing?
- Should we allow projects that were completed before an application was filed to obtain funding? A resident has made this request recently. Staff recommends against this policy as there have been many requests over the years in which residents were denied based on the policy that applications must be filed before any work is done. Our consultant agrees with the current policy and notes that there are requirements that must be agreed upon in the Notice of Award that we would not know if they were met if the work was completed prior to applying.
